Executive Director

Gail Pascoe, RN, MFT

Dear Friends,

We at Making Headway pride ourselves on improving the quality of life for those affected by Traumatic Brain Injury (TBI). Our efforts toward education and prevention have increased dramatically. Whether in schools, through service organizations or at public events, we believe that TBI prevention is the best result of all. Case Managers at Making Headway work diligently, helping clients to regain vital living skills; assisting with housing, education and transportation needs; and ensuring a sense of belonging to survivors who often feel isolated as a result of their injury. A "Pain Reduction Alternatives" class has begun. Support groups and therapeutic recreation continue as demand for services increases. At public presentations and even during off-hours, it is common to be approached by people who are eager to talk about their experience with TBI. Perhaps you or someone you know has had such an experience. Please take a moment to consider *your* contribution to TBI prevention and recovery. As word spreads, so do the positive effects of your contribution.

Sincerely,

Jeffrey Smoller
Director of Community Development

Yes, I would like to make a tax deductible donation to

Making Headway
